## 陶瓷繪掛鏡系列 Glaseramic Hanging Mirror Series

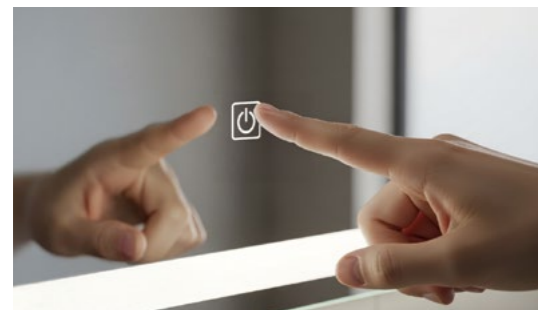

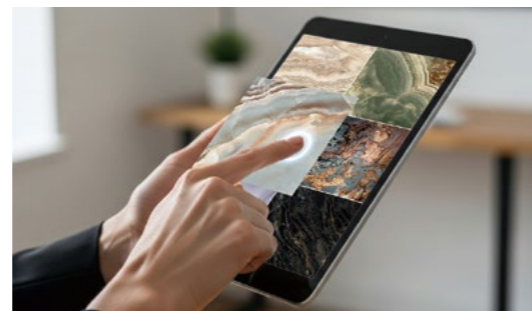

由於陶瓷繪玻璃在生產中需經強化（鋼化）處理，數位圖片與最終成品之間可能出現色差。另外，因陶瓷繪背板為玻璃材質，其觀感會受安裝後的背光顏色與亮度影響。請以實際安裝環境下之實物顏色為準。

Because ceramic-printed glass undergoes tempering during production, color differences between digital images and the final product may occur. As the back panel is made of glass, its perceived color varies with the hue and intensity of backlighting after installation. Please refer to the actual product under its intended lighting conditions.

### 自選陶瓷繪背板 Glaseramic Back Panel – Customizable

每款陶瓷繪掛鏡型號均設有三款面板圖案可供選擇，當然你亦可以選擇以外的圖案，打造個性化的陶瓷繪掛鏡。

Each glaseramic hanging mirror model is available with three standard panel patterns. You may also specify a non-standard pattern to create a personalized glaseramic hanging mirror.

Saint Glas Glaseramic Hanging Mirror Collection offers an optional multi-functional light control touch key, combining effortless control with smart lighting. With a simple touch, users can adjust brightness and color tone—from warm to cool—to create the perfect lighting mood.
